Dear Lorna

I want to thank you for the assistance on this year's Seminar!

You've been a wonderful Vice President this year, giving me all the help & support I needed. I believe this note paper isn't long enough to enumerate all your good deeds for this group, but I can't close without acknowledging your hours & hours spent on Cemetery Volumes.

I know you'll be glad for the nearing time when I won't have to be phoning

"YOU FOUND WHO IN YOUR FAMILY TREE?"

Memories.

Think of the days that
have swiftly flown by.
When we were just "kids."
'Neath the clear blue sky,
playing and singing the
whole day thro
For nothing else had we
to do.
Wading old North Creek from
bridge to wood
Then 'neath the Red haw tree
we stood
Eating the berries ripened
red.
Each day some conquest like
this we led.

Riding a picket;- Fun? Of course
Never was there a gentler
horse.
Never kicked- never bit-
could lead it with yarn,
Stand it up by the chicken-
coop, that was the barn.
And there the creatures
would yet have stood
Had mother not needed
some kindling wood.
Such is childhood- Life's
early dawn
We never can see it
until it is gone.
